

China Product Special Report

China Product Special

Sample: PU material

WWW.E-TO-CHINA.COM

Customization:

Please do not hesitate to contact us for the full sample report and more details:

Site:	www.e-to-china.com
Sales Phone:	(+86) (0) 10 64723325
Sales Email:	sales@e-to-china.net
Service Center:	(+86) (0) 10 64725114
Service Center Email:	service@e-to-china.net
Address:	2/F, Beijing International Technology Cooperation Center, 9 Wangjing -zhonghuannan Road, Chaoyang District, Beijing, P. R. China

Table of Contents:

NEWS.....	3
No More Coal Chemical Projects in the Next Three Years	3
African Polymer Producers in Mire in 2010.....	3
US Chemical Exports down 3% YOY in Nov. 2009.....	3
Polyurethane in the World's Tallest Tower	4
Japanese Ethylene Exports Quadruples YOY in Nov. 2009.....	4
Sony Employs Polyurethane in Its New Product.....	5
Market	5
Pure MDI Downstream Markets in East China Cool down	8
Polymerized MDI Prices in South China	8
TDI Market in East China Remains Steady	8
BDO Market Goes Steady	9
Adipic Acid Market Steady	9
PO Price Further Rises	9

China Product Special Introduction:

China Product Special, wholly created by ETCN in English, is designed to provide reference in content and support in decision for industrialists engaged in product manufacture, purchase and other professions by virtue of its coverage of pertinent up-to-date information dynamics, business news, market analyses, upstream and downstream product prices, policies and regulations, import and export data, project information, trade fairs, and so on.

Report Contents:

▪ Information Dynamics

Offer timely product and market prediction and analysis with focus on new technologies and new trends

▪ Business News

Offer latest dynamic trends of enterprises and products, including enterprise expansion, product reduction and suspension information.

▪ Policies & Regulations

Offer policy information on products or industries, including dumping, antidumping, anti-subsidy, export tax refund, and so on.

▪ Import & Export Data

Offer data such as product import/export quantity and value

▪ Project Information

Offer information on product or industrial projects, including project biddings

▪ Trade Fairs

Offer information on Chinese and foreign fairs, exhibitions or symposiums

Report Advantages:

Advantages in Resources – ETCN enjoys approval by China Customs authority and co-sponsorship by China Customs Brokers Association (CCBA) and Beijing International Technology Cooperation Center (BITCC), so by virtue of reliable authoritative customs data source, real-time updated product information and industrial expert analyses, ETCN's reports customized for clients are capable of helping users timely understand product and market developments so as to grasp any business opportunities.
